MASINO CASTLE:

More than a thousand years of the history of Piemonte, and indeed of Italy, are conserved in a fairy-tale royal palace nestling amid immense and wonderful English-style 19th century grounds. Castello di Masino - the residence for ten centuries of the Earls of Valperga, the supposed descendents of King Arduino - dominates the panorama of the Canavese area, and its interiors are embellished by rich ornamentation and breathtaking frescos. The nearby Palazzo delle Carrozze plays host to the extensive collection of 18th- and 19th-century coaches.

There, a guided tour of Rosazza village and its fascinating mysteries will be waiting for you. Before leaving Biella you can't miss two important aspects of life of Biella: the textile and the wine-making tradition. In an extraordinary setting, where the mountain environment surrounds the factory, Casa Zegna tells the story of the

OASI ZEGNA.

Since the 30's, Ermenegildo Zegna had been designing and financing the panoramic road linking Trivero to Andrate, in the Canavese region and which still has his name. He changed the Triverese mount in a garden in harmony with nature, by promoting the planting of thousands of firs, rhododendrons and hydrangeas. The E. Zegna group, created the Zegna Oasis, aiming at going on with the founder's work, with the same care he had towards his land of birth. The project has been developed along the 26km Zegna panoramic road between Trivero and Rosazza. It aims at increasing the value of the territory and it offers the visitor the real opportunity to get in touch with nature, by using a new sign system.

HOTEL BUCANEVE.

With its profile and external cladding of pinewood, the Hotel, designed in 1963 by Luigi Vietti, the great architect, blends perfectly with its mountain surroundings. Situated in a splendidly panoramic and sunny position at 1,500 meters above sea level, with a romantic terrace embracing the Po Plain as far as Monviso, the Bucaneve is less than 200 meters from the Bielmonte ski slopes.

The Hotel offers its guests a beautiful experience in the elegance of the alpine tradition, thanks to painstaking renovation work that has preserved the atmosphere of a typical mountain chalet and struck a nice balance between period furnishings and new additions made to Vietti's designs.

Always down-hill and in complete relax, you will cross peaceful valleys and landscapes, the medieval village of Masserano, and finally

The next wine tasting stop will be the Castellengo Castle with its Centovigne wines. Jutta and Alessandro will take you to the discovery of this castle perched on a hill overlooking the beautiful valley below, its back to the smooth hills of Biella. Shortly after leaving this place, the landscape changes completely and you'll find yourself crossing the Natural Reserve of Baragge. The dense heath alternating with vast expanses of prairie, makes it look like the African savannah, with the Biella Alps as a background. After visiting Ricetto, one of the best preserved medieval towns in Italy, your journey will come to an end: a minibus will take you back to Villa Matilde, from where you started four days before, and you'll return home!

THE BARAGGE AND THE RICETTO OF CANDELO.

Vast grasslands and moors spotted with sporadic trees and small woody valleys. The Baragge landscape immediately strikes for its simplicity and its balance between spaces and forms, for its limitless appearance, extending to the infinite: it looks like the African Savannah landscape. The Ricetto of Candelo is one of the best preserved examples of medieval fortified structure in the world in which the population took refuge in case of need. It has a historical interest of international value.
